During the summer, it's a common sight to see people gathered on the beach, watching the waves roll in. Some sit quietly, lost in their own thoughts as they listen to the soothing sound of the ocean, while others are more animated, jumping up to snap photos or point out interesting things they see in the water. **Waverse is a typeface inspired by ocean waves and currents. With its rounded corners and subtle slant, Waverse evokes a gentle, continuous wavy rhythm along the x-height, reminiscent of the undulating waves of the sea. The contrast between the straight stems and the curving rounds gives the typeface a distinct character, as if it's shaped by the movement of the wind.**

BREEZY

60pt

*It's a **reverse contrast typeface** that has an open and airy look. The filled-in 'a' and 'e' allow more air in the counter, seamlessly integrating with the other letterforms to form an enchanting pattern. The cut-off 'g' and 's' avoid the cramped structure that is commonly seen in reverse contrast typefaces. This feature further enhances the overall airiness of the typeface.*

WINDY

60pt

*The two new styles, ‘breezy’ and ‘windy,’ draw inspiration from the sea breeze. ‘Breezy’ features a light 12° angle, while “windy” offers a more dynamic 20° angle. Additionally, the **variable font** feature allows users to fine-tune the wind’s intensity.*

During the summer, it's a common sight to see people gathered on the beach, watching the waves roll in. Some sit quietly, lost in their own thoughts as they listen to **the soothing sound of the ocean**, while others are more animated, jumping up to snap photos or pointing out interesting things they see in the water. ***The sun beats down, warming their skin, and the salty breeze blows through their hair, creating a sense of relaxation and freedom. As the waves crash against the shore, some people stand up and rush into the water, eager to feel the refreshing coolness of the sea. It's a beautiful moment, one that captures the essence of summer and the joy of being by the sea.***
